

Modern Contemporary Design

15W, 1,100 Lumen

3000K & 4000K

Dimmable

WS-Series LED Decorative Wall Sconce

The WS-Series Decorative Wall Sconce fixture is available in 15W (3000K and 4000K) to help meet the lighting requirements of any hotel, residential or dormitory project.

Its slightly oversized design helps installers to overcome the dreaded scarred footprint on the wall that wall sconces leave behind. If you're looking for a sleek and modern metallic wall sconce for your project the WS-Series is the ideal choice.

Key Features & Benefits

- Slimmer profile for a truly flush and modern look
- Epistar LEDs for superior quality and dependability
- Slightly oversized to cover over previous fixture's footprint so no painting or touch ups are required in retrofit applications
- Durable, frosted diffuser creates a soft, comfortable look for any space
- Energy Star rated
- 50,000 hour lifespan
- Backed by a 10 year, worry-free warranty

WHY CHOOSE THIS FIXTURE?
