

Up to 450 Lumen Per Foot

Direct AC 120V Input

3000K & 4000K

## LS2-Series Linear Strips

The LS2-Series Linear Strip is a dimmable, low profile solution for any cove or undercabinet project. Available in a variety of lengths with the ability to connect up to 10 strips on one pass, they are the most versatile way to give your project a custom look.

### Key Features & Benefits

- Up to 400 lumen per foot
- Direct AC 120V Input
- Integrated ON/OFF toggle switch\* directly on each strip
- T5 shape for retrofit applications
- Connect up to 10 strips on one pass (maximum 40 feet)
- Safe and durable polycarbonate lens cover
- High strength aluminum for durability and optimum heat dissipation
- Available in 9", 14", 23", 35" and 47" lengths
- Great for undercabinet and cove lighting in the hospitality and healthcare industries
