

50W, 100W & 150W / 120-277VAC

Built for -40° Degree Weather

Up to 18,200 Lumens

Natural White 4000K

PT2-Series LED Pole Top Luminaires

These PT2-Series LED Pole Top luminaires are a modern twist on the everyday pathway fixture. With a wide beam angle that provides 360° of uniform light, these fixtures are the perfect lighting solution for parking lots, parks and retail settings.

Simply mount these on a standard 3" post top tenon, mate the 50W model to a 10' pole or the 100W to a 15' pole, and you've got yourself a powerful replacement for just about any HID that's backed by a worry-free warranty of 10 years.

Key Features & Benefits

- Up to 120 lumen/W
- Natural White 4000K color that reduces light pollution
- Modern black finish to easily complement any environment
- Designed to work in -40°F / -40°C weather
- Photocell compatible
- Consumes up to 43% less energy than traditional pole fixtures
- Projected lifetime L_{70} of >50,000 hours
- Used in parking lots, corporate parks and retail settings

WHY CHOOSE THIS FIXTURE?

ADVANCED OPTICS

Provides light in a 360° pattern that limits the shadowing often caused by mounting arms.

CONTEMPORARY STYLE

Modern lines and a black finish make it the perfect fixture for outdoor applications such as pathways and parking lots.

TENON POLE ADAPTER

Included to easily mount the fixture onto popularly-sized 3" poles.

SMART DESIGN

Makes it super easy to install by just one person, drastically saving you time and money on the jobsite.
