

# T8/T5 TYPE C TUBES

T8/T5

LED Type C Linear Tubes are an optimal choice when upgrading existing fluorescent tubes to LED. Type C tubes use an external driver to operate the lamp rather than an external ballast, eliminating ballast compatibility issues and ensuring optimal system efficacy and performance.

## SPECIFICATIONS:

- 8W, 11.6W, 16W, 18W, 22.5W, 26W, 36W, 52W, 72W, 100W
- 1,130-3,400 lumen packages
- External driver directly replaces ballast
- 3500K, 4000K, 5000K CCT
- >80 CRI
- 150 LPW
- Fixture maintains original UL compliance
