

MAGNETIC RETROFIT KIT

Keep the Lights On Without Breaking the Bank

The Magnetic Retrofit Kit offers a quick, cost-effective solution for upgrading fluorescent lighting. Designed for business owners and facility managers seeking efficient lighting improvements without the expense of full fixture replacement, this smart system installs directly into existing troffers, strips, and wraps without requiring ceiling space access.

FEATURES & BENEFITS

- Fast Installation: Complete retrofit in just 10 minutes.
- Non-Invasive: No need to enter or disturb ceiling space, installs with magnetic backing.
- Power & Color Selectable: Three power options and three color temperatures (3500K, 4000K, 5000K)
- Voltage Compatibility: 120-347V wide voltage range.
- Simplified Inventory: Only two SKUs (2x2 and 2x4) cover most applications.
- Value Package: Each pack includes two LED strips, driver, and all connector accessories.
- Compliance Ready: TAA compliant for government projects.
- Maximum Rebates: DLC Premium listing ensures highest available rebates.

APPLICATIONS

- Factories
- Warehouses
- Office lighting
- General lighting
- Strip lighting
- Ceiling fixtures
