

HIDSP AREA LAMP

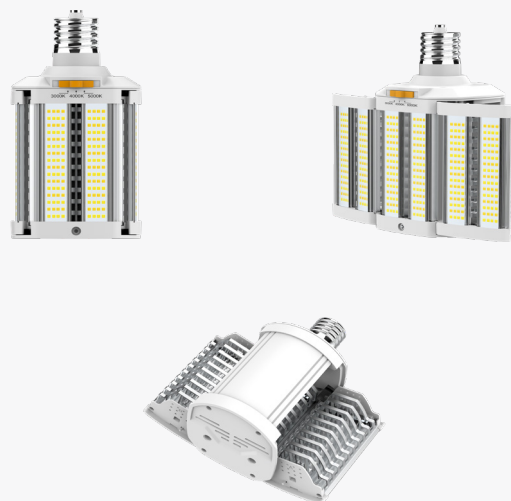

High-Performance, Direct-Fit Retrofit for Outdoor Applications

Replace 250W and 400W Metal Halide and HPS lamps without fixture replacement. EiKO's HIDSP area lamps deliver up to 150 lm/W, field-adjustable color temperature, and IP64 outdoor protection with a 350° swivel for precise aim.

KEY FEATURES

- **Direct-fit EX39 Mogul Base** - Installs into existing Metal Halide and HPS fixtures in minutes
- **Wire direct to line voltage** - 120-277 V, ballast bypass. No ballast compatibility issues
- **Expandable with 350° swivel** - Precision aim for area, parking, and shoebox applications
- **Cut energy costs 60%** - Up to 150 lm/W versus traditional HID
- **ColorSET** – Set your color temperature to 3000K, 4000K, or 5000K via dip switch on site.
- **DLC 6.0 Listed** - Qualify for utility rebates
- **Built for the outdoors** - IP64 rated, 4kV surge protection, 50,000 hours (L80)

Expandable with 350° swivel

APPLICATIONS

- Parking Areas
- Roadways
- Streetscapes
- Area Security Lighting
- Sports fields and stadiums
- Airports
