

RDR DOWNLIGHT RETROFIT. SELECTABLE PERFORMANCE. WET LOCATION READY.

The EiKO RDR Downlight Retrofit gives distributors a smarter way to stock and contractors a faster way to install. Two SKUs. Field-adjustable light output and color temperature. Wet location rated. Code-ready out of the box.

KEY FEATURES

- **Direct retrofit replacement:** Replaces legacy 4" and 6" CFL and incandescent/halogen downlights
- **Field adjustable:** ColorSET (2700K–5000K) and PowerSET (3 wattage levels) via simple dip switch
- **SKU consolidation:** two part numbers cover virtually any retrofit downlight project
- **Wet location rated:** One downlight works across the entire building, from offices and lobbies to bathrooms and showers
- **90+ CRI:** smooth, diffused illumination that renders colour accurately in any space
- **Code ready:** Title 20 and Title 24 compliant, Energy Star certified, TRIAC dimmable, up to 1,325 lumens
- **5-year** limited warranty

ORDER CODE	NAME	SIZE	WATTAGE EQUIVALENCY	WATTS (W)	LUMEN OUTPUT (LM)	COLOR TEMPERATURE (K)	EFFICACY (LM/W)	CRI	DIMMING	BASE
